“Every service has its price. What matters is that both win you over.”

Vontobel uses only recycled paper for printing. It takes about 1.5 times less energy and 2.5 times less water to produce recycled paper than it does to produce paper from fresh fiber. Recycled paper also cuts greenhouse gas emissions by more than 20 percent. We offset the remaining emissions with various CO₂ projects around the world

A partner for your goals

Vontobel Wealth Management actively manages your assets with foresight—if you wish, over generations. We follow a holistic approach, closely monitoring the markets and anticipating trends and opportunities so that we can develop individual solutions for you. In this way, we create the optimal preconditions for increasing and protecting the assets you have entrusted to us—for the long term and at an appropriate level of risk.

You, your wishes, and goals are our number one priority. Continuity and long-term sustainability are very important in our business relationships, so over a span of many years, your Relationship Manager will remain the same person. Our team approach ensures that not only your Relationship Manager is there for you, but that you also have additional experts at your disposal as needed. In addition, we offer high-quality digital solutions that can provide relevant support to the personal advice we give

you. To what degree you would like to combine the one with the other depends on your preferences.

As our client, you benefit from our nearly one hundred years of experience, from the advantages that only a family-owned financial institution has to offer, and from our success at combining tradition with innovation in a way that will generate profits for you as a client.

Everything starts with a personal conversation

The philosophy behind the way we work with you follows a set of clear principles that are oriented toward meeting your specific goals. Initiating the relationship is a personal conversation between us. Only when we more precisely understand you, your current situation, and your goals can we meet your expectations and optimally bring our know-how to bear. Further, in order to take account of possible changes over time, we will have this kind of a conversation with you on a regular basis.

Together, we will elaborate a picture of your current situation, discuss your values, your family and professional situation, and put together a catalogue of your assets and liabilities. We will thrash out your plans and goals and establish which ones are your priorities in the medium and long term. Based on all this, we will then provide you with suggestions for solutions that we will implement according to your specifications and monitor on a regular basis.

To what degree you want to be involved in the investment process is another important point. You can completely delegate the management of your wealth to us, and you do not have to worry about anything else. If you are already familiar with the major financial markets, have your

own investment ideas, and would like to coordinate them with us, then our Advisory Service is a suitable solution for you. You decide when and how intensively you want to exchange views with our experts in addition to discussions with your Relationship Manager. But the actual investment decisions always remain with you.

It goes without saying that you can also decide to manage a portion of your assets one way and another portion a different way.

Or perhaps you are only interested in one particular market, or one industry, one product, one investment vehicle—in this case, we are also here for you.

You set the goal, and together we choose the way to get there.

In other words, to be able to offer you exactly what suits your requirements and wishes best, we listen to you very carefully. Only then will we propose the pathways that will

bring you systematically and consistently to your destination—in a disciplined and forward-looking manner. Again and again, we will orient ourselves to the following steps:

Your situation

Taking into consideration your values and expectations, we will analyze your assets and liabilities, your professional and family situation.

Your plans and goals

We will weight and prioritize your most important plans and goals for the future.

Your investment strategy

We will establish the appropriate strategy to achieve your goals, being sure to clarify your risk capacity and risk tolerance as well as your experience with financial products.

Your orientation

Here, we will complete the overall picture and determine the next steps.

Your solution

This comprises a specific proposal with the relevant contracts and supplemental information.

Your basic choices

Our services are designed to help you determine what is important to you, how much help you want, and in what combination.

Vontobel services at a glance

Vontobel Access

With Vontobel Access, you are assured access to the world of Vontobel with our investment solutions, financing solutions, and wealth planning services. In Vontobel Access all our essential basic services are included.

Vontobel Managed Solutions

If you choose our Managed Solutions, you delegate investment decisions and their execution to us. You have the choice between different solutions comprising different investment strategies and reference currencies.

Vontobel Advisory Services

You would like to benefit from the knowledge and recommendations of our analysts and investment experts. But you want to decide yourself how much, when, and where you want to invest. In that case, our Advisory Services are the right choice for you.

Vontobel Compose

Certain asset structures as well as your personal preferences may make a combination of Managed Solutions and Advisory Services a sensible choice. In this instance, you determine which part of your assets should be managed in one way and which part in the other way. Here, too, there is a wide range of options available to individualize the service we provide you.

Financing Solutions

Our Financing Solutions make it possible to exploit your assets optimally and leverage them with borrowed capital. For example, we offer Lombard loans that help you optimize cash flows and allow you to take advantage of interesting investment opportunities. In addition, we offer a range of mortgages.

Wealth Services

Our specialists can advise you on all financial matters. We work with you to develop a comprehensive strategy based on your individual financial and family situation as well as your personal wishes and goals.

Vontobel Access

Vontobel Advisory Services

Management of your assets with the support of an experienced partner. Benefit from investment ideas and recommendations we submit to you as well as from ongoing portfolio monitoring.

When it comes to Advisory Service, we actively support you when investing your assets, always in-line with our jointly defined investment strategy. You decide on the composition of the portfolio. You receive individual investment ideas tailored to your portfolio and objectives, and you can call upon the know-how and experience of our investment experts. We give you access to a broad range of research and investment publications assuring that

you are on the pulse of the markets. In addition, you benefit from comprehensive portfolio monitoring and are actively informed if a portfolio position deviates from our jointly agreed-upon specifications. We offer you two different Advisory Service mandates, which you can combine with two pricing models (a flat fee model and a brokerage fee model).

Services

- active support from our investment experts in managing your portfolio
- personal investment advice with specific investment ideas submitted based on your investment objectives
- access to a wide range of research and investment publications
- access to global financial markets, a broad range of financial products, and an efficient and secure settlement platform
- continuous monitoring of your portfolio including notification in case of deviations from your specifications
- regular portfolio review known as a health check
- access to proprietary investment products that invest optimally in equity markets worldwide
- access to inducement-free investment funds
- detailed, transparent information about the performance of your portfolio

² Includes closing the banking relationship (account / custody account), crediting positive remaining balances, archiving of client documents, postal delivery of client documents (as required), closing card accounts, deletion of standing orders, dissolution of direct debit orders (LSV), dissolution of the mobile services.

General Provisions

- For Vontobel Access, the domicile of the contractual partner is relevant. In the case of joint relationships in which the contractual partners have different domiciles, the higher fee applies.
- In Europe, Vontobel Access comprises the countries of the European Union (EU), the European Economic Area (EEA), and the United Kingdom, excluding the Principality of Liechtenstein. For all other countries, our international pricing applies.
- Unless otherwise stated, fees are for one year and are charged pro rata temporis on a quarterly basis; the calculation is based on the average portfolio value.
- Prices do not include consumption taxes such as value-added tax.
- Stock exchange fees and fiscal duties will be charged in addition.
- Any third-party commissions and expenses will be charged in addition.
- When executing foreign exchange, precious metals, cryptocurrencies and OTC derivatives transactions, additional costs, such as bid-ask spreads, may apply regardless of the chosen investment solution and pricing model. Unless otherwise agreed upon these transactions are executed by the Bank as the counterparty and not as a commission business. For currency and precious metal forward transactions and swap transactions, Vontobel and financial expert may charge a margin based on volume, which will vary from 0% to 1.5%. Your Relationship Manager will be pleased to inform you about the amount of spreads and margins.
- For structured products traded on the secondary market, transaction fees of equities, bonds, and funds apply on brokerage models. For structured products that are subscribed on the primary markets, distribution fees can be paid in the form of a discount of the issuing price as payment of part of the issuing price or in the form of other structuring fees. These kinds of distribution fees range from 0% to 2% of the issuing price of products.
- The Bank reserves the right to levy a surcharge or supplemental fee for services and products requiring an exceptional investment of time or effort.
- In the case of account closing, the periodic fees for the current quarter are calculated pro rata temporis to the end of the current month and are payable immediately.
- The Bank reserves the right to charge clients for any negative interest on deposits imposed by central banks.
- For reasons of clarity and ease of use, only the most important services have been listed in this document. Your Relationship Manager will be happy to inform you about services and fees that are not listed here.

Glossary

Additional mailing instructions	Additional requirements for the delivery of bank correspondence (for example, delivery of document copies to an authorized person).
Automatic Exchange of Information in Tax Matters (AEI)	Procedure governing the mutual exchange of data between participating countries concerning accounts and custody accounts of taxable persons. The new global standard for the AEI is intended to prevent cross-border tax evasion.
Collective tax statements without application for reimbursement	Compilation of the recoverable withholding tax amounts without the corresponding applications for reimbursement.
Consolidated catalogue of assets	List of assets that summarizes the securities positions of several different investment solutions.
Country-specific tax statement	Annual statement of investment-derived income (interest, dividends, other distributions, and fund reinvestments if applicable), as well as—if required—realized capital gains and losses, bank charges, and debt interest, taking into account specific requirements for selected European countries, in particular Switzerland, Austria, France, Germany, Italy, Spain, Sweden, and the USA. Partially, additional reports (e.g. Modelo 720 for clients in Spain, monthly reports for clients in France or Belgium) are provided.
Enhanced monitoring requirements	Increased due diligence that applies in specific client situations to combat money laundering. This applies, for example, to persons who occupy a significant public function in a national government, state-owned enterprise, or supranational organization.
Foreign Account Tax Compliance Act (FATCA)	A U.S. law directly affecting banks outside the United States. The goal of FATCA is for all accounts held abroad by U.S. persons to be disclosed and taxed in the U.S. FATCA requires that foreign banks identify accounts held with them (directly or indirectly) by U.S. persons (so-called “U.S. accounts”) and periodically report to the U.S. tax authorities.
Foreign custody costs	Costs that foreign clearing organizations charge for the securities held by them for safekeeping.
Generic tax statement	Annual statement of investment-derived income (interest, dividends, and other distributions), realized capital gains and losses, bank charges, and debt interest without specific details.
Inducement-free investment fund	Investment fund which does not compensate for distribution fees. As a rule, these investment funds have lower overall costs.
Invested assets	All the assets in an investment solution (e.g. securities, physical positions held in a custody account, money market investments, and account balances). The absolute value of individual holdings is added together, and they cannot be offset against each other, for example, with short positions, forward contracts).
Investment strategy	The guideline and approach defined by the investor concerning how the portfolio should be managed. These may relate to specific investment instruments, currencies, industries, and time periods.

Non-traditional investment products	Investments that cannot be allocated to traditional asset classes such as equities, bonds, or money market products. They comprise a wide variety of instruments and strategies (e.g. hedge funds or third-party private equity).
Operating companies	Companies that carry out a trade, production or service operation, or operate another business of a commercial nature.
Portfolio review known as a health check	Systematic report on the risks in the portfolio and any deviations from the selected investment strategy.
Risk capacity	Risk capacity indicates the risk that a client can reasonably tolerate due to his or her life, income, and wealth situation and is an integral part of the risk profile that is determined for each client. The risk profile is used as a basis for recommending suitable financial instruments and securities services and/or for concluding contracts for other services provided by the bank.
Risk tolerance	Risk tolerance is used to measure the degree of risk that a client is willing to accept due to his or her personal preference and is an integral part of the risk profile that is determined for each client. The risk profile is used as a basis for recommending suitable financial instruments and securities services and/or for concluding contracts for other services provided by the bank.
Securities acquisition cost report	Statement of the acquisition cost of securities needed for disclosure to tax authorities in the case of custody account transfers, especially for clients domiciled in Germany.
SEPA payment	A single standard for payment transactions or money transfers in Europe (Single Euro Payments Area).
Stock exchange fee	A fee charged by a stock exchange for the securities transaction processing it provides. In Switzerland, for example, the SIX Swiss Exchange charges a fee for all exchange and off-exchange transactions.
Total assets	Includes all assets (e.g., securities positions, physical positions held in a custody account, money market investments, and account balances). The absolute value of individual holdings is added together, and they cannot be offset against each other, for example, with short positions or forward contracts). Fees calculated on the basis of total assets are debited to the individual investment solutions proportionally.
Vontobel Wealth	Vontobel Wealth is the digital offer for Wealth Management services delivered by smartphone, tablet, or browser (computer or laptop). For more information, see vontobel.com/digitalservices .
